Nora Lighting announces the Sapphire II LED, its new high-lumen LED downlight with Cree COB technology. The Sapphire II features 4, 6 and 8-in. apertures with 900 to 4,500 lumens and 90+ CRI. It includes deep cone reflectors for visual comfort and offers choices of 2700K, 3000K, 3500K or 4000K. The Sapphire II offers specifiable beam spreads of spot, medium flood and flood, allowing for lower lumen and wattage units.

Above All Lighting announces its Heavenly High Bay series. The high-powered LED series ranges from 9,100 to 61,000 lumens. It features a dimmable linear high-bay design and allows for a multi-level occupancy sensor or emergency battery backup. The series is available in a clear polycarbonate or acrylic frosted lens and includes several mounting options (surface, pendant or V-hook).

Fulham announces its HotSpot EZ Exit EM T-grid emergency lighting kit. Offered as an add-on to conventional exit signs, the kit uses existing ceilings to light the way to safety in the event of an emergency. Available in 24 and 48-in. form factors, EZ Exit consists of linear LED lights designed to fit into T-grid ceilings as a retrofit or as new construction. The 24-in. unit has a 10.7-W output in emergency mode with 1,480 lumens, and the 48-in. unit has a 17-W output in emergency mode with 2,485 lumens.
